

IAT Course and Diploma Fees

As of 1st May 2024, the registration fee for level 2 and level 3 diplomas is £150 per participant, and the fee for Level 4, 5, and 6 diplomas is £30 per course. All fees are inclusive of VAT.

These qualifications are recognised and respected within the industry and provide essential skills and knowledge for animal welfare and research. They also enable your employees to become eligible for IAT membership, which offers further opportunities for professional development and networking.

To help you understand the fee structure, we have enclosed a statement that explains the difference between the registration fee and the course delivery fee, and the role of the IAT in administering and accrediting the diplomas. Please read these statements carefully and contact us if you have any questions or concerns.

We appreciate your continued support and cooperation in providing quality education and training for animal technologists. We hope that you and your employees will continue to benefit from the IAT diplomas and the services that we offer.

Yours sincerely,

The IAT Board of Education Policy

Course Fee Disclosure Statement

Please note that *£30/£150 of the total cost of this course is allocated to cover the Institute of Animal Technology (IAT) registration fees. This amount is inclusive of VAT and is a mandatory fee required for registration purposes. It is important to understand that this registration fee is distinct and separate from the course delivery fees, which cover the educational and operational costs of the course itself. Additionally, the IAT registration fee should not be confused with IAT membership fees, which are separate and cater to different aspects of professional involvement and benefits within the IAT. For further information or clarification, please contact admin@iateducation.co.uk.

£150 registration fee for full level 2 and 3 diplomas.

£30 registration fee for all individual HE courses.
